What is Urban Studies?

Urban Studies is an interdisciplinary or even trans-disciplinary subject focusing on the study of the urban realm in the context of an unfolding urban revolution where more than half of mankind is now living in cities! This is an exciting time to pursue urban studies as the majority of the world population needs to put their brains together to understand the origin, evolution, growth and future prospects of cities in face of a rapidly globalizing world. We have to understand the visible and invisible boundaries of the urban realm in our highly connected planet; the various sectors of development such as transport, housing and economic activities, within and beyond city boundaries; the possibilities of collaboration and the threats of polarization in urban societies; the ecological potential and crises in cities; and politics and power that determine directions of development in diverse urban settings. Urban Studies not only helps us develop a capacity to read cities but the field also equips us with concepts, skills and a lifetime appetite to understand the urban realm and make it a sustainable place for human flourishing.

課程目的：培育未來城市領袖的跨學科課程

本課程將為學生提供跨學科知識及專業學習，並配合社會科學及文學院內不同學科，以提供相應的學習活動。課程設計的目的如下：

- 協助學生建立對全球化現象的深度認識。
- 教導學生掌握社會互動的競爭過程及世界都市空間的現有環境。
- 以最新的城市研究及發展的知識培養學生，深化本科服務基礎。
- 本學位授予具有見解的學生在知識基礎上和中國的城市發展歷史、文化的根源和都市空間的變化。
- 促進學生明確分析社會經濟發展及中港兩地環境之間的關係，了解這兩地關係及環境關係對政策和都市發展的制約與管理。
- 在相關領域中，為學生提供更多的知識，以培養學生成為跨學科領域的領袖。

Professional Accreditation

Royal Institution of Chartered Surveyors (RICS)

The Urban Studies Programme is recognised by the Royal Institution of Chartered Surveyors (RICS). According to RICS, it is the world’s leading professional body for "promoting and enforcing the highest international standards in the valuation, management and development of land, real estate, construction and infrastructure". Graduates of the Programme are eligible to apply for RICS membership. An RICS membership constitutes five benefits, namely, 1) status, 2) recognition, 3) market advantage, 4) knowledge and 5) network.

Royal Town Planning Institute (RTPI)

The Urban Studies Programme is the first undergraduate programme in Hong Kong which has obtained the Spatial Planning Accreditation by the Royal Town Planning Institute (RTPI). It is the United Kingdom’s leading planning body for spatial, sustainable and inclusive planning and is the largest planning institute in Europe with over 23,000 members. Students who wish to become a Chartered Member, are required to complete a Cemained qualification (a Spatial qualification and a Specialist qualification) and apply for membership through the Licentiate Assessment of Professional Competence (APC).
Programme Highlights

- Foundation courses on urban studies, spatial planning, urban economics, sustainability design, place-making, comparative studies of cities.
- Required courses on the land development process and urban planning theory and practice.
- Local and overseas field trips to understand urban development, environment, governance, policies, planning and design in Hong Kong, China and overseas countries.
- Develop an area of specialization for a career or further studies in the urban field.
- Completion of a capstone thesis or a capstone project on the chosen area of specialization.

Programme Activities

To sensitize our students to current affairs, e.g. new development areas, seminars are held regularly during the semester. Different parties, including scholars, urban planners, social workers and employees from government departments etc. are invited to share their views and comments on various urban development cases and projects. The seminars provide invaluable opportunities for our students to have direct interaction with scholars and professionals, so that they can develop stronger interest and have a better understanding of different urban issues.

Visits, fieldtrips and community workshops are organized to broaden our students’ horizon and allow them to experience our city from different angles.

Mr. Au Hei Yat, the former Deputy Operations Director of The Kwai Ho Motor Bus Co., Ltd. was invited to deliver a seminar on "Smart Mobility in Hong Kong". In his talk, he shared his experience in the industry and some innovative ideas on how to improve the mobility system in Hong Kong.

Mr. Loke Cheuk, the Royal Town Planning Institute Young Planner of the Year 2013/14, visited the programme and gave a talk about "Challenges for Young Planners". His talk focused on the current challenges faced by urban planners and how they can work together to develop sustainable cities.

In order to understand the sustainable transport network in Hong Kong, a cycling tour from Tung Chung to Ma On Shan was arranged. The students were able to experience the diverse modes of transport available in Hong Kong, including buses, trains, and bicycles.

"Introduction to Spatial Planning" students went on a field trip to understand the current development of "Kowloon". The trip highlighted the importance of urban planning in shaping our future cities.

Students in "Introduction to Urban Studies" visited Tung Chung to understand the planning and poverty issues from multiple perspectives. They also observed the local community and engaged in discussions with residents.

Mr. Tin Hing Lai, the founder of ThinkHouse Group and an urban planner, was invited to introduce design thinking methods and their applications in planning and designing a sustainable urban environment. ThinkHouse Group, an innovative architectural and design firm, has participated in various urban planning and design projects, including the innovative design of "Kowloon".

The programme also included a panel discussion on the future of urban planning in Hong Kong, with experts from different fields sharing their views and experiences.

In conclusion, the programme activities provided our students with a comprehensive understanding of urban development, planning, and sustainable design. The seminars, visits, fieldtrips, and workshops were designed to broaden their horizons and enhance their skills in urban planning.

Overseas Field Trips

To let students understand the meanings of urban studies in this dynamic world, the Programme offers them a series of overseas field trips. We take our students to the most exciting and interesting sites where students can immerse themselves in the diversity of urban forms and social fabrics. Students will interact with faculty and students from different universities, practitioners and policy makers to understand contemporary issues and solutions. Through these fieldtrips, the students will bring valuable international experiences and lessons back to Hong Kong. Fieldtrip destinations may include, but not limited to, USA, Mainland China, Germany, Singapore, Taiwan, Greece, South Korea and Vietnam.

Field trip to Greece

A visit to a city in southeastern Greece, Kalamata, where students shared their observations with the local residents.

Field trip to Seoul, Korea

A visit to Gyeongbokgung Palace.

Students visited Gyeongbokgung Palace.

A visit to Seoul City 2017 Office.

Studies Cheonggyecheon and its impacts on the surrounding landscape.

Students visited the Cheonggyecheon Stream.

Scholarships

ARUP Scholarship
To inspire future leaders of the built environment, the global company of design, planning, engineering, and consultancy, One Arup & Partners Hong Kong Limited (Arup) has established the ARUP Scholarship for the Urban Studies Programme since 2016. The awardee will receive a cash award of HK$15,000 and will be given an eight-week paid full-time summer internship opportunity with Arup.

RICS Scholarship
Since 2018, the Royal Institution of Chartered Surveyors (RICS) has established the RICS Scholarship in order to reward hardworking students with outstanding performance in the course on essentials of the land development process. The awardee will receive a cash award of HK$5,000.

Cyrus Chau (Awardee of ARUP Scholarship 2017)
The 8-week internship at Arup was inspirational. It provided me a remarkable hands-on opportunity on planning and development projects with a team of team planners and sustainability consultants, an experience that can never be replicated in a classroom setting. With the open-minded working culture in Arup, I have been an eye-opening experience. I have been involved in gathering, exchanging and addressing responses from government departments, teams of professionals from various fields and community stakeholders involved.

Awarding of ARUP scholars

The 2018 ARUP Scholarships were presented to Ms. Rachel Au, Mr. Alan Cheung and Mr. Phillip Lo for their outstanding performance in the Urban Studies Programme. They were awarded with a cash prize of HK$15,000 each.
实习计划

本课程为学生提供实习机会，使学生在参与服务学习过程中获得实质的工作经验，并对其所学加以应用和增加自信。学生会根据工作环境和经验，选择和自己兴趣和技能相符的职业发展道路。实习生有机会在以下公司担任志愿者工作：

- Amari Geopals Solution Limited
- Business Environment Council Limited
- Carbon Care Asia Limited
- GarapanCare InnLab
- Cantas Maki Cheung Si Kun Community Centre
- Designing Hong Kong
- Green Sense
- Goed Lab Foundation Limited
- Hong Kong Country Side Foundation
- Hong Kong Public Space Initiative
- Make A Difference Institute Limited
- SEI Network Limited
- The Hong Kong Council of Social Service
- The Oval Partnership Limited

实习体验分享

CHEUNG, Lok Hin Nicky (Year 3)
Business Environment Council

在为期两个月的实习期间，我了解到如何与企业或机构共同制定可持续性政策，包括编写政策和相关指南。实习过程中，我们进行了一些实践活动，如举办研讨会和演讲等。通过这些实践活动，我看到了自己的成长和进步。

FUNG, Wai Ching Ritter (Year 3)
Green Sense

在过去的两个月里，我在Green Sense工作。我参与了一个项目，该项目与可持续发展有关。在这个项目中，我在香港的街头收集了超过1000个可回收物品。我参与了分析数据，使用统计方法和生成结果。然后，我们根据这些结果制作了一份报告，其中包括关键发现。

LEE, Ming Wai Vivian (Year 4)

My exchange studies in the University of California, Santa Barbara was one of the most memorable experiences throughout my four years of undergraduate life. Immersing myself into a deliberate yet supportive learning environment, I was truly impressed by the enthusiasm of my fellow course mates towards cutting edge knowledge on urban transportation. Outside class, we formed study groups and even participated in an International Conference to gain better insights on future mobility. I would like to express my deep gratitude to the Programme for sparking my curiosity and eagerness to step out of my comfort zone! Gratitude to the Programme for sparking my curiosity and eagerness to step out of my comfort zone!

POON, Pace (Year 3)

I felt very grateful and fulfilled after completing a semester at the University of Massachusetts Amherst. It offered me a chance to become a better observer and learner. Studying abroad is not limited to learning through textbooks and lectures, but also about reaching out to new environment and embracing cultural differences with a reflective mind. For instance, I was able to explore many U.S. cities in person and think how they can become a model or lesson for other cities. I also enjoyed every chance to meet and exchange opinions with new people as I can always get new ideas in conversations. I strongly recommend every student to take up the chance to study abroad. Stay curious!
Graduation Prospect

Urban Studies is an interdisciplinary subject. Our graduates have a wide spectrum of career choices, such as administration and management, architecture, education, transport planning, urban planning and design as well as valuation. Some of our graduates are working in government units or social and public organizations, for example Civil Servants Bureau, Hong Kong Customs and Excise Department and Urban Renewal Authority. While some graduates have entered private companies and consulting firms, for instance AECON, Adrian L. Norman Ltd., Arup, Henderson Land Development Co. Ltd., Jones Lang Lasalle Ltd., LWK & Partners Ltd., MVA Asia, and RHL Apriorial Ltd., many other graduates have pursued further studies in landscape architecture, transport planning, urban design, urban planning and urban regeneration.

Employmnt Statistics of 2017 Graduates

Government & Public Service 10%
Commerce & Industry 35%
Social & Public Organization 10%

城市研究是一門跨學科的課程。畢業生可以有不同的職業選擇，例如行政及管理、建築、教育、交通規劃、城市規劃及設計、估價等。部分畢業生在政府部門或社會及公共機構工作，例如行政及管理、建築及營建局、部分畢業生投身私人公司或顧問公司，如艾克伍、易普爾。有畢業生在建築公司工作，例如聖基 SCAN，另一部分畢業生則在景觀建築，交通規劃、城市設計，城市更新及城市規劃。

Sahrina Hung (Graduate of 2016)

Town Planning Assistant

Interdisciplinary orientation of the Programme has helped me improve my communication skills and given me the ability to synthesise knowledge from different avenues. During the two overseas field trips, I had learned much about living conditions and urban forms of cities other than Hong Kong. Moreover, the Programme has given me a robust foundation of moral standards to rely on when I face problems in my professional life.

Winky Ngai (Graduate of 2016)

Graduate Transport Engineer

The Programme is very comprehensive that has taught me both urban planning theories and technical skills to specialize in spatial planning and urban design. The most attractive part of the Programme is the project-based courses which allow us to apply knowledge into practice and to get a taste of being a planner. More importantly, we cooperate with our classmates throughout the process. The practical experience I have gained in the programme has prepared me well for working in the planning industry.
Admissions
